# PAPR Disinfection Instructions

April 16, 2020

## Situation

- Conservation of PAPR hoods is essential as COVID-19 continues
- Identifying PAPR hood availability

## Background and Assessment

- Multiple users will use PAPR hoods after they are disinfected

## Recommendations

- Perform hand hygiene, don gloves
- Use EPA approved disinfectant wipe.
- Wipe down the inside and outside of the PAPR hood, including seams.
- Allow to dry for appropriate dwell time.
- Ensure it dries all the way before use.
- If hood is a shroud, turn it completely inside out to dry.
- Perform hand hygiene, doff gloves.
