Previous Process description:

In House COVID testing available as:
- SARS-CoV-2 PCR on Cepheid or Diasorin Platforms
- OR
- Respiratory Panel on Biofire

New process description:

NEW Test Added:
- SARS-CoV-2, Flu A, Flu B, and RSV by PCR on Cepheid Platform

Please use this test for all symptomatic patients in hospital settings.

Please reserve the SARS-CoV-2 PCR test for only asymptomatic patients. There is a need to use the Cepheid SARS-CoV-2 PCR test prudently as there will be no additional supply of this test until Spring 2021.
