Can use printed labels from GPMS and place here instead of handwriting all information. If collection date is different than date on label please cross out incorrect date and write in the new date.

Your clinic location should be printed here. This is where the results will be sent to.

This revised section needs to be marked correctly each time to ensure proper billing. If marked incorrectly the test will be delayed until verification is received of correct information.

All information must be included in this bottom half to ensure proper handling and reviewing of this sample for analysis.
