Medication
Order your refills early, give the pharmacy at least 5 days’ notice before you need your medication. Some insurance plans are allowing early refills or 90-day supplies…but some are not. Your pharmacy will bill your insurance and be able to tell you if it is allowed for your plan. Please do not stockpile.
Try to stay out of the pharmacy. Ask your pharmacy about their options to mail or deliver your prescriptions. If they have a drive-thru use that. Some pharmacies are offering a "curbside" pickup option when they are able. This will protect you from other patients who may be in the pharmacy and might be sick, and will also help protect others (including pharmacy staff)
If you are ill, please do not go into your pharmacy. Use mail or delivery options, or have a family member, friend or neighbor pick up your prescription.
If you need help with insulin or diabetic medications, please check https://insulinhelp.org/ from the American Diabetes Association.
