Golden Hand Award - 2016

Jon Kammerer, M.D.
Regional Health Services of Howard County

Award Criteria:
- Mentors and Educates Others
- Participates Actively on Committees
- Promotes Community Service
- Exemplifies Standards of Behavior

Dr. Kammerer is an exceptional practitioner. His role as a MercyOne physician in the network is vitally important to the east side of the MercyOne North Iowa service area.

Dr. Kammerer is a leader in both patient volumes and Press Ganey scores. As a network family physician, his expertise is shared across clinics, OB services, hospital inpatient and outpatient services, ED, nursing homes, and home care services.

Dr. Kammerer also serves on the MercyOne Network Governance Committee and fills in at our Board of Trustees meetings as the Vice Chair of the Medical Staff at Regional Health Services of Howard County.

Dr. Kammerer is dedicated to education. He routinely accepts clinical rotations of both medical students and nurse practitioners. By doing so, he also affords RHSHC the opportunity to hire graduating providers and also allows others to enter the medical field with a rural experience that may attract them to stay and practice in these underserved communities.

Dr. Kammerer did his residency in the MercyOne Family Medicine program and continues to serve as a strong connection for our providers to the larger network.

Dr. Kammerer is known in RHSHC as a mediator when issues arise. He is able to see an issue from many perspectives and bring a logical, inclusive thought process to the resolution or compromise.

Most importantly Dr. Kammerer is known for his kindness and compassion, his expertise and his dedication to his patients and our community.
