She received her Doctor of Pharmacy degree from South Dakota State University in 2018 and completed a PGY1 residency at Bryan Medical Center in Lincoln, Nebraska. Vanessa serves as a preceptor for the emergency department rotation. Her professional interests include internal medicine, emergency medicine, and transitions of care.

PGY-1
Pharmacy Residency Program

PROGRAM OVERVIEW

- Expected outcomes of the resident include:
- Provision of clinical pharmacy in multiple environments
 - Functioning as a contributing member of an inter-disciplinary health care team enhancing patient care
 - Education of patients and health care professionals
 - Personal commitment to life-long learning, self-assessment and self-evaluation
 - Commitment to advancing the practice and the pharmacy profession
 - Ability to establish and manage their own clinical pharmacy practice

ACCREDITATION

The 52-week residency program is accredited by ASHP.

RESIDENT POSITIONS

This program offers two full-time pharmacist resident positions.

PROJECT

The resident is required to complete one major project that pertains to a particular pharmacy topic or issue. A final project report must be prepared, formally presented and submitted in publishable form.

MULTIDISCIPLINARY IN-SERVICE

Residents are required to provide an interdepartmental in-service as a means of educating health care professionals on timely medication-related matters and medication policies.

EXTERNAL PROFESSIONAL ACTIVITIES (AND SUPPORT)

The resident is given financial support to attend the ASHP Midyear Clinical Meeting. The resident is expected to participate in the Residency Showcase and Resident Poster Presentation session at this meeting. Additionally, the resident is expected to attend resident meetings offered by the Iowa Pharmacy Association. PGY1 residents are given financial support to attend the annual Midwest Pharmacy Residency Conference (or equivalent) and present their year-long residency projects.

STIPEND/BENEFIT INFORMATION

The stipend for the 52-week residency is competitive and updated annually. Please contact the residency program director for the most current information. The resident receives 10 days of paid time off, plus approved holidays. The resident is eligible for the health insurance benefits offered by MercyOne North Iowa Medical Center. Residents

RESIDENCY PURPOSE STATEMENT

Postgraduate Year One (PGY1) pharmacy residency programs build on Doctor of Pharmacy (Pharm. D.) education and outcomes to contribute to the development of clinical pharmacists responsible for providing diverse patient care, eligible for board certification and eligible for Postgraduate Year Two (PGY2) pharmacy residency training. Pharmacists completing this residency program will be competent and confident providers of clinical pharmacy in multiple environments. They will be responsible and accountable for achieving the best possible drug therapy outcomes for patients as members of the inter-disciplinary healthcare team. They will be skillful educators of patients, healthcare professionals and the community on medication related topics. They will establish a personal philosophy of practice, which includes a commitment to life-long learning through the ongoing assessment and evaluation of their own performance. They will demonstrate leadership through advancing the practice and profession of pharmacy. Pharmacists completing this residency program will also be able to establish and manage their own clinical pharmacy practice.

are supported to attend professional meetings, such as the ASHP Midyear Clinical Meeting. Resources available to the residents include resident office space and personal computer.

OUR COMMITMENT TO DIVERSITY AND INCLUSION

Trinity Health is a family of 115,000 colleagues and nearly 26,000 physicians and clinicians across 25 states. Because we serve diverse populations, our colleagues are trained to recognize the cultural beliefs, values, traditions, language preferences, and health practices of the communities that we serve and to apply that knowledge to produce positive health outcomes. We also recognize that each of us has a different way of thinking and perceiving our world and that these differences often lead to innovative solutions.

Our dedication to diversity includes a unified workforce (through training and education, recruitment, retention, and development), commitment and accountability, communication, community partnerships, and supplier diversity.

ABOUT MERCYONE

We are MercyOne: a connected system of health care facilities and services dedicated to helping you and your community live your best life.

More than 22,000 colleagues strong, our care providers and staff make your health and happiness their highest priority, so you can get well—and stay well.

With 230+ care locations, our clinics, medical centers and affiliates are never too far from home, allowing us to improve the lives of individuals and communities across the state of Iowa and beyond.
